

## THE ONLY CLOUD SERVICE PROVIDER THAT TURNS YOUR HPC GREEN

## Distribute your computation on a secure and low carbon infrastructure thanks to Qarnot's simple and intuitive API.

The Q•Ware platform ensures the automatic distribution of tasks.

- High-performance services that meet all technical requirements.
- It easily integrates into any type of network architecture.
- It allows you to perform all types of CPU and GPU computation: financials simulations, multiphysics simulations, 3D rendering...
